Quality Policy

Directorate General of Drug Administration is committed to protect the health of people of Bangladesh by ensuring easy access to useful, effective safe and good quality modern medicines including vaccines and biologicals, traditional, homoeopathic and herbal medicines.

DGDA is also committed for implementation of Quality Management system through effective, transparent and timely manner and QMS will be continuously improved.

To meet our commitment, we must:

- Foster a team approach.
- Emphasize appropriate training for all employees.
- Recognize each employee's responsibility for quality.
- Provide regulations with timely written corrective actions.
- Earn recognition of our quality process and progress.
- Provide a framework for establishing and reviewing quality objectives.
- Develop and achieve Quality Improvement Goals.
- Maintain our honesty and integrity by following our Code of Conduct.
- Review and renew this Quality Policy on a regular basis.
